They let the Wive

The ex-GI's of our town entertained their wives the other night at one of their "feeds" of hamburger sandwiches and ice cold beer. (The girls had hinted that they'd like to see what went on when their husbands got together!)

Things Money Can't Buy

The Norfolk and Western is proud of the land it serves. This is a land filled with *things money can't buy* — friendly, alert communities set against a background of modern cities . . . towns and cities where life is good. Here folks find the things which make home *permanent* . . . neighborly communities . . . clean communities . . . prosperous communities . . . government *for* the people . . . climate and recreational facilities to keep bodies healthy and minds content . . . scenic beauty unsurpassed, in mountains and broad valleys stretching from the mid-West to the Atlantic coast, and between the North and the South.

In its current national advertising campaign to acquaint American industry with the manufacturing advantages of this great land — *The Land of Plenty* — the Norfolk and Western proudly presents these advantages as one of the most compelling reasons why industry can locate profitably in this territory. For these are advantages which create stability and *stay*bility in a people . . . the things that make a man say *"This is where I want to live."*
